

Hello Baby! Midwifery provides low risk women a home visiting antenatal and postnatal service by AHPRA endorsed midwife Ros McDonough. Women birth with hospital staff at the hospital of their choice.

For women to have antenatal care and claim for services up to the 6th week postnatal through Medicare it is required to have a *Collaborative Arrangement* with a recognised GP/Obstetrician, therefore a letter of referral for midwifery services is required.

This document needs to be completed by a GP or Obstetrician for Medicare rebates to apply.
Can be emailed, faxed or presented in person.
